### Example of Mail:

**Subject:** FW: Welcome to EVault EEP

## EVault ENDPOINT PROTECTION

### THANK YOU FOR SIGNING UP WITH STORVAULT AFRICA EVAULT ENDPOINT PROTECTION

#### New First Device Installation

This email provides instructions for installing EVault Endpoint Protection and getting help if needed.

**NOTE:** If you have a previous version of EVault Endpoint Protection on your computer you will need to uninstall it before installing this version. Uninstall instructions can be found towards the end of this email.

**Installing EVault Endpoint Protection** EVault Endpoint Protection software is a client application that runs on your Windows computer. Minimum system requirements are 1GB RAM and Windows XP, Server 2003, Vista, Server 2008 or Windows 7.

**Follow these simple steps to install the software which should only take a few minutes.**

1. Download the Evault Endpoint Protection client software for your computer, either running it from the web or saving it to your hard disk, by clicking on the relevant link:

Click here for [Windows](#)

Click here for [MAC OS](#)

2. Follow the instructions on the installation screens.
3. When you activate the client for the first time you will be asked for the activation URL and your personal activation code: **Activation URL:** eep1.storvault.co.za

**NOTE:** Do not click on this link. Copy and paste it into the appropriate text box during activation.

**Activation code:** AA31-DCD0-44B4-FF3D-B0BB

**NOTE:** When pasting the activation code, press Ctrl+V and it will paste the correct part of the code into each of the 5 boxes.

#### Un-Installing EVault Endpoint Protection

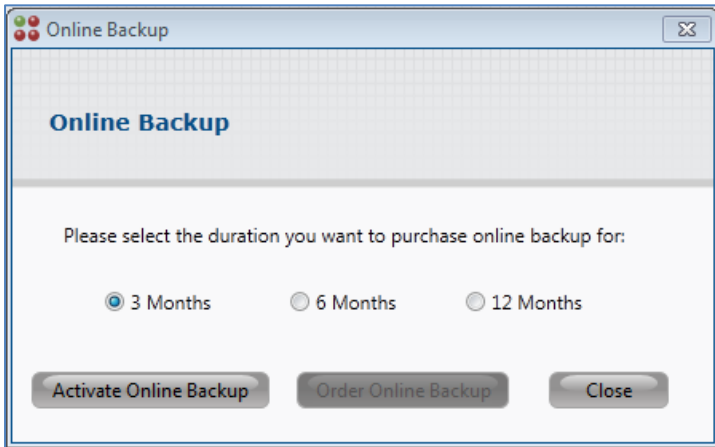

1. Remove the previous version by going to the Add/Remove Programs applet in the control panel on Windows XP or to the Programs and Features control panel applet on Windows Vista or Windows 7.
2. Check to make sure that \EvaultEndpoint directory has been deleted from the drive where you had EVault Endpoint Protection installed; delete it if it has not.

#### Get Help

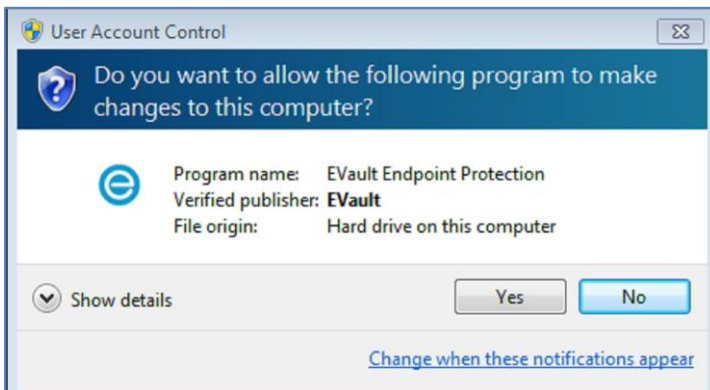

If you need help installing or using EVault Online Backups you can get help by contacting our Service Desk on 0861 EVAULT (382858) or [support@storvault.co.za](mailto:support@storvault.co.za).

- **Do not follow these instructions as the install is automatically built into ABACUS upon activation. Return to ABACUS and follow the steps as below:**
